How can Trend Micro XDR solve your detection and response challenges?

THE PROBLEM

Stealthy threats are evading detection

It only takes one threat to get through to be 100% at risk.

In the last five years, there's been a **67% increase in security breaches** (+11% YoY growth).

-Accenture

Disconnected security layers make analyzing and investigating threats a challenge.

Siloed tools lead to missed detections and piecemeal, manually taxing investigations.

66% of organizations said that threat detection/response effectiveness is limited because it is based upon multiple independent point tools.

-ESG

Slow and inadequate response increases the impact of the attack.

With no clear indicators, it's hard to respond effectively. Organizations have limited time or skills to manage these threats.

68% of breaches took several months or longer to discover. The mean time to identify (MTTI) increased to 197 days and mean time to contain (MTTC) increased to 69 days.

-Verizon

THE SOLUTION

Too many alerts? Not sure what's critical? Hard to investigate? Threats taking too long to detect?

Trend Micro XDR can help - see what you've been missing.

THE ABCs of XDR

AI and expert analytics

Correlation and analytics across security layers means fewer, higher fidelity alerts and faster, earlier detection - with it, you can combat threat overload.

More than 55% of all security professionals receive over **10,000 security alerts on a daily basis.**

-Imperva

Beyond the endpoint

XDR connects events across email, endpoint, server, cloud workloads that seem benign on their own - but represent a meaningful indicator of compromise.

94% of malware infections come from email, which is the #1 cyberattack source.

-Verizon

Complete Visibility

Single console with one source of prioritized alerts, supported by visualization and guided investigation, to help you "connect the dots".

More than half of enterprises use 25+ siloed security technologies. XDR leverages solutions that are designed to work together.

-ESG

MANAGED XDR CAN HELP YOU

Augment your team with a Managed XDR Service

Managed XDR offers 24x7 alert monitoring and investigation, remediation and response - backed by the resources and expertise of a team of Trend Micro security experts.

We can help you alleviate the pain and time to identify and investigate threats.

To learn more about XDR and how it can help you, **contact us today**.
