PUBLICATION

Lynchpin Media is an independently owned media communications company, whose main aim is to help organisations reach and influence decision makers in Europe, the Middle East and Africa. We have a growing database of over 340,000 global IT decision makers.

Our ethos is based around intelligence obtained from targeted campaigns. By understanding our audience we are better informed to advise our clients and help forecast market trends. We work with our clients to identify new customers and their requirements.

Intelligent CISO is a technology brand that encompasses various intelligence platforms aimed at the enterprise sector looking for updates and research driven data about cybersecurity. As part of Lynchpin Media, this digital medium gives unparalleled advice to the EMEA cybersecurity community.

CISOs face the constant challenge of deciding where to prioritise investment, while demonstrating the business value of their projects and embracing the strategic benefits their businesses are striving to achieve. Against this backdrop, there is also a growing need for cybersecurity strategies to include strong business justifications alongside the well-worn IT metrics that typically examine application delivery in

isolation. *Intelligent CISO* strives to bridge this gap between the traditional role of the CISO and the new-age demands weighing in on this pivotal, high-pressure role.

Spreading our resources across print, digital and events, *Intelligent CISO* endeavours to guide CISOs within the EMEA region with thought leadership, industry expertise, knowledge sharing and practical platforms from which to better understand the views of the cybersecurity industry, encompassing the voice of vendors, distributors, resellers and the all-important end user. With social media supporting all the above, our content is delivered across all platforms and enables industry professionals to discover and read this on their preferred device.

INTRODUCTION

Intelligent CISO is a technology intelligence platform aimed at the enterprise sector

Intelligent CISO gives unparalleled advice to the regional cybersecurity community

It guides CISOs with thought leadership, industry expertise, knowledge sharing and practical platforms

With social media support, content is delivered across all platforms to enable readers to use their preferred device

PREDICTIVE INTELLIGENCE

FEATURE

**BUSINESS
SURVEILLANCE**

The role of a CISO is more challenging – and more important – than ever. New cyberthreats are constantly emerging while older ones continue to evolve and CISOs are tasked with staying ahead of these to ensure organisations are effectively safeguarded from potential attacks. It is not a threat that is likely to disappear anytime soon. In fact, cyberthreats will remain an ongoing and growing issue as technology advances and remains integral to the everyday.

According to research carried out by the International Data Corporation (IDC), worldwide spending on security-related hardware, software and services is forecast to reach US\$119.9 billion in 2021, as published in the *Worldwide Semiannual Security Spending Guide*.

Intelligent CISO provides security officers with the latest information and

intelligence to help them make important, informed decisions. Our integrated platforms enable the industry to receive the content they need in a manner that suits them. It is our unparalleled understanding of this audience which enables *Intelligent CISO* to deliver effective campaigns aimed at ensuring maximum return on investment combined with sustained brand awareness across our digital platforms. Strategic partnerships with regional industry bodies, events and research companies enable us to both manage and grow the audience.

While much of the responsibility for ensuring effective security solutions are in place lie with the CISO, in the modern world it is important that the wider team is aware of the threatscape to ensure there is an effective long-term plan in place. *Intelligent CISO* provides an integrated platform that reaches this audience.

AUDIENCE BY COUNTRY/REGION %

OUR AUDIENCE

As of 1 January 2019, *Intelligent CISO* communicates with more than 80,000 security and IT professionals globally.

Intelligent CISO Audience breakdown

AUDIENCE BY JOB TITLE %

Senior management: CISO, CSO and other c-suite execs, MDs, IT and security directors
Middle management: Security, IT and network managers, security architecture roles
Other: Risk compliance analysts, IT channel, project managers and consultants
